## ACCORD Hospice

ACCORD Hospice provides specialist palliative care for people living with an illness which is no longer responsive to curative treatment. Our aim is to offer pain and symptom control, emotional, psychological and spiritual support, delivered by a team of specialist healthcare professionals.

With the opening of the Gleniffer Outreach Centre in 2008, patients, carers and their families have an alternative point of access to information which is more centrally located in the town. The new facility has also allowed the Hospice to relocate some of its services (e.g. bereavement support and complementary therapies) which has increased ease of access.

Hospice services are provided free of charge. NHS Greater Glasgow and Clyde contribute to the running cost and the remainder of the monies required are raised by our own fundraising team and voluntary donations.

The Hospice relies on the support of a strong team of volunteers who give of their time and skills on a regular basis.
