Basic Headwraps

A Practical Service
For
Patients with Hair Loss

Basic Headwrap 1

1.

Lay scarf flat, wrong side up. Fold into triangle. Cotton scarves are better than silk or satin as they tend to slide

2.

Drape scarf over your head with point in the back.

Fold about 1 inch back creating an edge

3.

Tie scarf ends in a half-knot behind your head, with flap anchored beneath the knot

4.

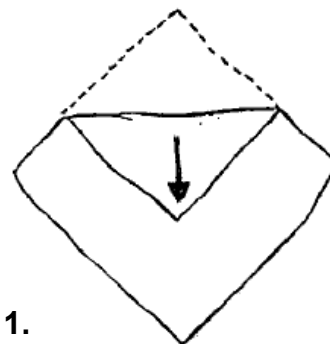

Tie scarf ends into square knot

Basic Side Twist

Tie as Headwrap 1 placing knot over one ear instead of at the back of head, letting scarf ends hang loose

Basic Headwrap 2

1.

Lay scarf flat, wrong side up. Fold into triangle, leaving one point slightly longer than the other

2.

Follow steps for Basic Headwrap 1. Using both hands, spread lower flap under half knot, as close to the back of your ears as possible

3.

Tuck flap and loose ends behind knot securely. Ideal with a hat

4.

Carefully bring flap from tip and tuck in up and over the knot.

Contrasting Side Twist

Tie as Headwrap 2. Twist a second oblong scarf. Knot 2nd twist over headwrap above ear
